Saint JOHN GRANDE ROMÁN

Carmona, Seville

1546

Jerez de la Frontera

1600

Saint John Grande, known as the Sinner, devoted his whole life to helping the poor, refugees and the sick, for whom he died as a victim of his dedication, at the age of 54, while nursing plague victims.

His rule of life was charity, nourished by a profound interior life, poverty, penance and a love of the Eucharist.

He succeeded in REFORMING, REORGANISING and IMPROVING health care in the city of Seville, putting an end to a system of corruption and mismanagement of the hospitals.

Let us turn to this great saint and entrust our present challenging times that are in such need of healing and purification.
