

The West European Province of Saint John of God and Saint John of God Hospitaller Ministries

Regional Conference 2016

Brother Donatus Forkan OH

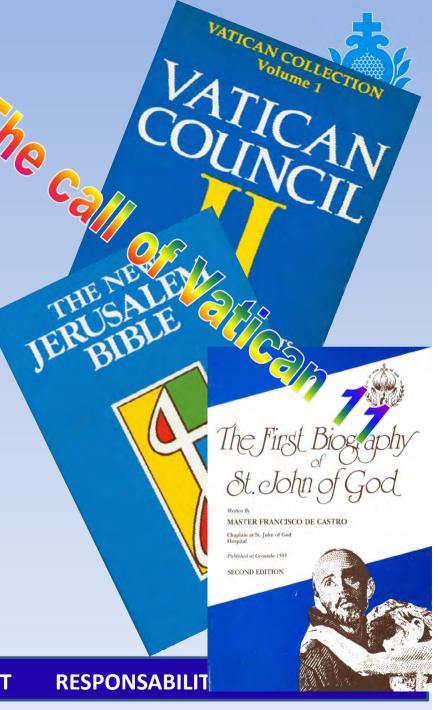

Following the mandate Vatican 11 to renew lives and ministry by reflecting on the sacred scriptures return to the original inspiration of the founder and read the signs of the times led our Province to the establishment of a new Church Body or Entity –

Ministerial Juridic Person MJP.

The is the story of our Journey

How we arrived at this point

Good Samaritan Type Figure

Important and Challenging Questions for the Brothers

 The Brothers moved from a position of being employer to that of being companions of empowerment in terms of the relationship with those who worked with us, our Co-workers. This had the positive outcome in terms of the Province being in a position to offer a variety of services and programmes to a wide range of people in need. It also meant harnessing the energy, commitment and professionalism of those Co-workers who found in Saint John of God a model and inspiration in their work.

- The fundamental question was -
 - How can we ensure that the work of Saint John of God continue as a ministry or work of the Church into the future irrespective of the numbers of Brothers there were?
- Struggling with this question led us outside of our previous lived experience and comfort zones to find a solution. A new structure had to be found, one that would be within the Church structure, faithful to our traditions and in keeping with the legacy received from Saint John of God and previous Hospitallers.

Ministerial Juridic Person - MJP

- Why did we of the WEP choose to place all of our Apostolic works in this new structure i.e. Ministerial Juridic Person?
- Because we do not have sufficient Brothers?
- True this is the perception....but this is only partly true, it is neither the whole story nor the real reason why the Holy Spirit has led us to this place......

TWO REASONS FOR CHOOSING THIS OPTION

- 1. In the first instance inspired by the example of Saint John of God together with a new understanding of our missioncompelled us to leave our monasteries, go from behind the walls of the enclosure and into the market place!
 - This new sense of mission resulted in creative and imaginative ways of living and expressing Hospitality. This in turn led to an increase in the numbers of poor, sick and needy people being accompanied and served. In this new scenario the old ways of doing things, old structures no longer served the mission.

Structures are there to support the mission; once they cease to do that they must be changed

Our structures needed to be changed dramatically. Looking towards and planning for the future, the Brothers came to realise that a new model was called for. A new formula, fresh blueprints to plan the Order's future in order to ensure its continuity, presence and mission was required.

Second reason.... Arguably more important than the first...the ROLE OF THE LAITY IN THE CHURCH

Another factor that gave us direction was again the Second Vatican Council when it spoke about the place and role of the Laity in the church. Even before the Council Pope Pius XII stated.... "Not only do the Laity belong to the church,

"THEY ARE THE CHURCH"

2. An increase in the numbers of people who fascinated by the story of John wish to continue his work in the manner that he has shown us. These Hospitallers – some Religious Brothers but mostly Lay people, LAY HOSPITALLERS inspired and moved by the example of John wished to give of their utmost to ensure that the poor, sick and needy people whom they serve, support or care for receive optimum service in an hospitable environment.

....All the lay faithful "are protagonists in the work of evangelization and human promotion" (Pope Francis)

 The Brothers, therefore have not given up something or lost something by putting in place the MJP, but rather have invited the Laity to the very heart of the mission of the Church and empowering them, enabling them to carry forward the message of the Gospel to the most needy brothers and sisters in society and do so in the manner of Saint John of God

• However, to set up a new Church Body / MJP was HUGE for us Brothers. This was a new experience for the Brothers. It took a lot of soul searching, there was no precedent in our history for a Province to put all of its apostolic works in an Entity that was outside the direct control of the Brothers/Provincial and Council.

■ The British-American author D. H. Lawrence said, "The world fears a new experience more than it fears anything. Because a new experience displaces so many old experiences." New ideas are not a problem. The world "can pigeon-hole any idea," Lawrence said, "but it can't pigeon-hole a real new experience."

VISIONING III FUR FUTURE

true inner experience changes us, and human beings do not like to change. For the Brothers setting up a MJP was a major paradigm shift in attitude, thinking and behaviour. The setting up of the MJP was a completely new experience, a new way of seeing, doing and visioning the future.

To make this happen the West European Province of Saint John of God formed a New Church Body – MJP. Saint John of God Hospitaller Ministries.

Conclusion

Given the human condition, some people, very few people have an nostalgia for the 'good old days' but not the Brothers, they would not wish to turn the clock back.

The reality is of course there is no back to go to, even if one wished to do so! The bridge has been blown up, so to speak!

What needs to be cultivated within ourselves and others in an ongoing basis is -

- A change in attitude, thinking and understanding...
- Acknowledge, celebrate and express appreciation for the fact that thanks to the dedication and commitment of Saint John of God Followers - present day Hospitallers - the numbers of poor and sick and needy people being served continues to increase...

Formation of Board Members and Lay Hospitallers is Critical if this new initiative is to succeed.

- Formation is beyond training or professional education, it is a *formation of the heart* (DCE) in the first instance...
- The role of those with canonical governance responsibilities is to lead people to God through the strategic decisions they make for their ministry...hence the importance of a good preparation
- We have a four module course in formation of CG and Board Members spread over a two year period.
